

The Hands of Lady Gaga

David McCabe and Franny Coughlin

In this piece, *The Hands of Lady Gaga*, the main focus is on feminism and human rights. According to the Department of Labor, while women are 8% more likely to get a bachelor's degree by age 29, they earn 69.25 cents to the dollar compared to men. In the original painting a feminine root is in the care of Dr. Moore. In our modern painting, it shows all of the posters of women and men who support this movement today. This comes to show that the equality of all is important to everyone.
